

## FENG BINGYI

**Feng Bingyi** (b. 1991, Ningbo) is a young emerging talent in the Chinese art scene. Having studied under Yang Fudong at the China Academy of Art, she follows in his footsteps with her focus on cinematic traditions, while employing a poetic language. Distancing herself from the chains of external reality, she looks for inspiration within her internal impressions, which she expresses in the forms of installations, photography, documentary and animation. After receiving both the Outstanding Graduation Work Award and the China Academy of Art Scholarship from the China Academy of Fine Arts in Hangzhou in 2013, Feng continued her studies at the Chelsea College of Art and Design, University of the Arts in London in 2014. Though she has been exhibited in China alongside well-established contemporary artists, she has never before been shown in Berlin. Feng is one of the artists undertaking the PANDAMONIUM Residency.
